MANAGEMENT DISCUSSION & ANALYSIS REPORT

KEY ECONOMIC AND INDUSTRY TRENDS

The staffing industry in India over the past five years has been growing at 20–25% a year. It is showing no signs of slowing down because it continues to be in a structural stage of transformation.

Though in India flexi staffing, or temporary staffing, is yet to gain traction, the industry is beginning to come of age, with incumbent players beginning to focus on new offerings, increasing investment in technology, improving consultative selling capabilities, and focusing on operational efficiencies while also making their presence felt at the right places. Initiatives like goods and services tax (GST), demonetisation and the Real Estate (Regulation and Development) Act have opened up this market for newer entrants, and we are seeing newer staffing players entering the organised staffing sector. In other words, the staffing industry is all perched to make a new leap.

While on the one hand, employers are beginning to show their increased reliance on flexible staffing to meet their business imperatives, the regulatory environment in India is also beginning to ease, making it easier for the employers and the staffing players. The future of the staffing industry is also linked to the job scene in the country.

The industry offers various staffing models, including temporary staffing, permanent staffing, contract staffing, and gig or freelance staffing. Temporary staffing remains the most common, but other models are gaining popularity as businesses seek greater flexibility in managing their workforce.

There are five distinctive trends that will have a bearing on the industry and will drive the next phase of growth:

I. Skill and talent gap issues in India

Up to 39% employers state that attracting and finding quality talent is one of the most challenging aspects. Remember, 90% of jobs are skill-based, and only 2% of the population (in the 15–25 age group) is currently enrolled for vocational training, compared with 60–80% worldwide. This apart, talent attraction, engagement, and retention remain a big challenge for most employers.

II. Rise of the Gig Economy in India

While the gig economy is in its infancy in India, it is expected to grow in the near future, much like it has grown in the US and other developed markets. A recent study by McKinsey has estimated that up to 20–30% of the workforce in developed markets is engaged in independent work. A recent survey by Flexing It, a platform for independent consultants, indicates that more than a third of the 500-plus organisations surveyed in India expect to rely up to 50% on flexible talent in the next five years. This will have a bearing on the talent strategy of organisations, and therefore should be an important area of focus for the staffing companies in India.

The staffing industry in India registered a 5.9% quarter-on-quarter growth in new jobs in the second quarter of the current fiscal year (July-September 2023), according to the flexi staffing industry employment growth report by Indian Staffing Federation.

The report showed that the rise in employment was particularly notable in key sectors such as ecommerce, retail, FMCG, logistics, manufacturing, hospitality, tourism, aviation, energy, etc.

III. The rise of digital staffing platforms

Given the rise in need for contingent staffing, several digital staffing platforms, such as Upwork, Shiftgig, and Catalant have emerged overseas. These companies match the talent needs of enterprises and the job requirements of individuals in a cost-effective manner. They are expected to be present in India. This represents a risk and an opportunity for traditional staffing companies. While they represent competition, it can also force the traditional players to go digital and look at diversifying their offerings and building or acquiring digital platform capabilities. This will also lead to M&As and consolidation, as the staffing players will look to acquire digital platforms to build scale, reach, and access.

IV. Technology as an enabler and differentiator

Technology will become an important enabler and differentiator for staffing companies. They would need to increase their investments in automation for improving efficiencies and technology for improving the hiring and recruitment processes. For example, AI can help automate up to 75 percent of the recruitment process. Of all the staffing industry trends, AI is ready to shake up the marketplace in terms of efficiency. AI has the ability to focus on candidate skill levels over unconscious biases.

ANNEXURE B TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF CASPIAN CORPORATE SERVICES LIMITED (FORMERLY known as INTELLIVATE CAPITAL ADVISORS LIMITED)

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

1. We have audited the internal financial controls over financial reporting of CASPIAN CORPORATE SERVICES LIMITED (FORMERLY known as INTELLIVATE CAPITAL ADVISORS LIMITED) ("the Company") as of March 31, 2024 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

2. The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India". These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Management's Responsibility for Internal Financial Controls

3. Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

6. A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that:

(1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;

(2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and

(3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.
